Instructions on the use of **SCHALI® Firming Power** rejuvenating gel of lifting series

TRADE NAME:

SCHALI® Firming Power

PRODUCT FORM:

Cosmetic gel in a 10 ml polypropylene dispenser.

INGREDIENTS:

Aqua, Glycerin, Titanium Dioxide, Triethanolamine, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Glycereth-18 Ethylhexanoate, Glycereth-18, Hyaluronic Acid, Amber Extract, Propylene Glycol, Diazolidinyl Urea, Methylparaben, Propylparaben, Phosphoric Acid, Sodium Benzoate, Potassium Sorbate, Citric Acid.

CHARACTERISTICS OF THE PRODUCT:

Unique SCHALI® Firming Power cosmetic gel of Active light scintillation Premium line is specially designed to achieve the lifting effect. It is effective in the comprehensive removal of gravitational sagging of the skin, as well as folds and wrinkles. It gives the skin elasticity, returns the lost elasticity. The action of the active components is aimed at restoring the epidermis and dermis, by affecting the main components responsible for the elasticity of the skin. The constant use of the gel helps to prevent the appearance of signs of aging, such as sagging skin and appearance of wrinkles.

The uniqueness of the SCHALI® Firming Power rejuvenating gel is based on the combination of gel components and hyaluronic acid, which is a purified extract, manufactured using a special technology SCHALI.

For the first time in the world practice it was possible to create this compound using eco components in the gel composition, also without the use of thickeners, dyes, preservatives.

SCHALI® Firming Power gel provides a synergistic effect of the donor of the purine and pyrimidine base, which are the main molecules of the viability of all cells, using it as a structural base and its contacts, for the DNA metabolism, which helps restore the regenerative ability of cells.

MECHANISM OF ACTION:

SCHALI® Firming Power gel contributes to better penetration of the components to damaged cells, organizes the supply of cells with the necessary constructional material, stimulates the improvement of skin component functioning, improves the structures of the interconnection between the dermis and the epidermis. Sodium hyaluronate helps moisturize the skin and restore tissues.

APPLICATION:

Lifting gel can be used as a protective cream both during the daytime, and in the evening. It is recommended to use it twice a day in case of signs of aging and loss of elasticity. Apply the gel with slow massage movements until it is completely absorbed.

SCHALI® Firming Power gel is also effective for the following indications:

- slowing skin aging and long-term regeneration effect of cells and skin;
- natural effect of preventing the appearance and elimination of wrinkles (botox analogue);
- lifting and whitening of complexion, neck, décollete and other areas;
- non-invasive lipolysis and elimination (prevention) of cellulite;
- rehabilitation, in some cases, the replacement of plastic surgery;
- treatment of acne;

- prevention and treatment of oily and porous skin;
- fighting fat deposits;
- treatment of hair;
